D. APPLICABLE REGULATIONS:
- Sarpy County Comprehensive Development Plan

III. ANALYSIS / STAFF COMMENTS

A. SARPY COUNTY COMPREHENSIVE PLAN
- CHAPTER 3: Land Use & Growth Management
  Future Land Use – Map 12 Future Land Use Map classifies this site as Residential Estates. The proposed development would be consistent with this future land use designation.
  Future Land Use – Growth Management – Map 13 Growth Management Zones designates this site as being within the Rural Development Zone. The Residential Estate land use area is intended to accommodate large lot residential development. It is intended to accommodate continued low density development in rural areas. Generally, these areas are not currently served by municipal utilities, and are not planned to be served in the future. As current conditions provide, these areas are best served with individual wells and septic systems. Residential Estate areas are generally located along the periphery of communities and the county where land use is less dense, sharing similar qualities with neighboring Agricultural land use areas.
- Characteristics of the RE category include:
  - Location in areas where public utilities are not available,
  - Location in areas determined to have unique or sensitive natural areas, including stream corridors, tree stands, wetlands, and natural habitat areas.
  - The larger lots allow for greater potential to preserve natural amenities through the
use of conservation easements and common open space,
- Accessory buildings may be allowed at a scale between typical suburban
development and farm buildings,
- Uses within this area include single-family residential in accordance with
appropriate zoning districts, churches, parks/recreation/open space, and
associated accessory uses.

- Development Density – Figure 19 Residential Development Decision Matrix allows
densities greater than 5 acres per unit with individual well and septic systems being
provided. The proposed Kracl Hoppy Acres plat meets this requirement.
- Conservation Provisions – Map 14 Environmentally Sensitive Areas identifies
Environmentally Sensitive areas that should be preserved as open space in the form of
platted outlets designated as conservation easements. The policies in this area of the
Comprehensive Plan apply to subdivisions comprised of lots smaller than 20 acres in
size. Since this plat is actually combining smaller Tax Lots into one 35 plus acre platted
lot, these provisions do not apply.

CHAPTER 4 – Infrastructure
- The site is outside of any areas planned for future public wastewater services.
- Wellhead Protection Area – Map 16 Sarpy County Wellhead Protection Areas indicates
that the site is located outside of any well head protection areas.

CHAPTER 5 – Transportation
- Federal Roadway Functional Classification – Map 17 Sarpy County Federal Roadway
Functional Classification identifies 240th Street as a Minor Collector roadway.
- Anticipated Full Buildout Street Network – Map 21 Sarpy County Anticipated Full
Buildout Street Network shows 240th Street as a minor collector.
- Proposed access points to the site:
  - One access driveway will serve the site from 240th Street, located just north of Tax
    Lot G2
  - Fifty feet of right-of-way is being dedicated for 240th Street

B. OTHER AGENCY REVIEW/COMMENTS: The applications were sent to various
jurisdictional agencies and departments within Sarpy County that may have an interest. No
comments were received as of the date of this report.

C. GENERAL COMMENTS:
- Preliminary/Final Plat
  - The preliminary and final plats are proposing to combine tax lots into one large
    platted lot which meets the County’s subdivision regulations.
  - At the Planning Commission meeting, Danny Woolman, property owner to the south
    of proposed plat, addressed the Commission with concerns regarding the southern
    boundary line. He was advised by the Chairman that his issue appears to a civil issue
    and that he should take whatever action he finds necessary to defend whatever rights
    he thinks he may have, before the plat is filed. Please see his statement submitted
    for the record attached.

3. Public Upon Request
Good evening and thank you for your time. I wish to make a statement and offer documents for the record concerning the Motion on Revised Preliminary Plat RPP-18-002 and Motion on Final Plat FP 18-002.

A few days ago I learned that the decades long boundary, as I knew it, between tax lot G1A1, the subject of this hearing and tax lot H, my adjoining property, had changed. This revision reduced my property size, tax lot H from 16.57 acres to 15.47 acres, a 1.1 acre property loss for me and a concomitant 1.1 acre gain for the Kracl’s tax lot G1A1.

Please allow me to provide a brief background.

Tax lots G1A1 and K were part of the property my sister and I inherited from my father, Robert Woolman, former Sarpy county agent and former District 5 Sarpy county commissioner. He passed in March 2015. The land was in our family for over 47 years until we sold it to the Kracl’s in October 2017. My sister and I also inherited Tax lot H, a separate parcel that was purchased by my father at a later date. Tax lot H is immediately to the south of tax lot G1A1. Together, tax lot G1A1 and H share the complete south property line from west to east.

For decades, tax lot H was listed as 16.57 acres, but was recently changed and is now listed as 15.47 acres. I made a few calls to the assessors office and had a discussion with Mr. Nelsen from the GIS office and learned that the reduction was based on a survey done for the Kracl’s by GLS Surveying. This survey redrew and moved the boundary between the two tax lots from what was the recognized and historical centerline of the creek, up to the edge of south bank of the creek. This resulted in a gain of 1.1 acres for the Kracl property and a 1.1 loss for my property.

I wish to offer a few documents for the record. Let me say right up front that I am not a surveyor, but I grew up on the property and my knowledge of the land dates to 1970. First, I submit item A, a Google Earth picture of the properties. Please
notice the heavy tree area labeled creek. This is the boundary between the two tax lots.

Next, item B is a copy of a 1970 survey, filed with the county, which was done shortly before my father purchased the property. Please note that the survey shows the centerline of the creek as the property boundary.

Item C is a copy of a 1981 survey, filed with the county, which also shows the property boundary labeled as centerline of creek.

Item D (two pages) is a copy of assessors data for 2017 and 2018 showing a decrease in TL H acreage from 16.57 to 15.47.

Item E (two pages) is a copy of assessors data for 2017 and 2018 showing an increase in TL G1A1 acreage from 29.14 to 30.38.

Item F is a copy of the listing contract showing tax lot G1A1 as 29.15 acres.

Item G is a copy of Seller’s statement again showing TL G1A1 as 29.15 acres.

Finally, item H is a copy of an image supplied by Sarpy GIS showing two property boundaries. The yellow line is an unsurveyed estimation of what the boundary would be if the actual centerline of the creek is used. The acreage figures reflect the totals of the two parcels if a centerline creek boundary were used. Tax lot H still is decreased by .12 acres, but not 1.1 acres as is currently the case. Compare the yellow line with the red line. The red line is the actual revised boundary plotted by the GLS survey. Please notice how the boundary shifts south and closely follows the south bank of the creek rather than the centerline.

In conclusion, let me just say that my father spent many hours in this very room. As a lifelong public servant, he taught me the value of being a good neighbor. To that end, I sincerely hope that Don and Joyce Kracl will work with me in the same “good neighbor” fashion to make some revisions to our common boundary. With that, I support the preliminary and final plats 18-002 and ask the members of board to vote in favor of approval.
