RE: Red Addition – Change of Zone, Preliminary and Final Plat, Special Use Permit Applications

Dear Mr. Fountain:

The District has reviewed the preliminary and final plats, as well as the change of zone and special use permit applications for Red Addition, located at 8787 South 192nd Street in Sarpy County and offers the following comments:

- A post construction stormwater management plan demonstrating on-site control of the first one-half inch of stormwater runoff and no-net increase in peak runoff from a 2-year storm event must be submitted for this project.
- This property is located in the Zone AE floodplain of Crystal Creek. A floodplain development permit is required for this project.
- As this property is located in the Zone AE floodplain of Crystal Creek, all structures built on this parcel will be required to meet current floodplain ordinances. Placement of fill on this property will be limited to 25 percent of the plan area located in the floodplain.
- Creek setbacks of 3:1 from normal water surface elevation plus 20 feet must be met for all construction on this property as stated in Sarpy County Stormwater Management regulations.
- The special use permit application shows an area designated for new outdoor storage. Sarpy County Zoning Regulations Section 30.8 (E) states: “1. The storage or processing of materials that are in time of flooding buoyant, flammable, explosive, or could be injurious to human, animal or plant life is prohibited. 2. Storage of other material or equipment may be allowed if not subject to damage by floods and firmly anchored to prevent floatation, or if readily removable from the area within the time available after flood warning.”
- A detailed plan for the outdoor storage area should be submitted prior to approval of the special use permit.

If you have any questions or concerns, I can be contacted at 444-6222 or at llaster@papionrd.org.

Sincerely,

Lori Ann Laster, CFM

RE: Red Addition Lot 1  
192nd Street and Giles Road  
Change of Zoning, Preliminary and Final Plats, and Special Use Permit

Dear Mr. Fountain:

Our law office serves as the duly appointed City Attorney for the City of Gretna, and in that capacity we are respectfully writing to you about the above-referenced matter and the interests and concerns of the City of Gretna.

First, this letter replaces my previous letter to you about this matter dated February 3, 2016.

Second, since the portion of the property within Gretna’s extraterritorial zoning jurisdiction is a small triangular area of approximately 164 square feet which is undevelopable considering setback requirements, Gretna is in agreement to process these applications through Sarpy County and will not require a separate submittal through Gretna. We trust, however, that in similar circumstances in the future that Sarpy County will similarly agree.

Third, the entire subject property is within Gretna’s wastewater service area as designated in the Agreement For Wastewater Service dated September 18, 2013 between Omaha, Gretna, and Sarpy County, and before this final plat for Red Addition Lot 1 can be released by your Department an Agreement For Interceptor Connection And Wastewater Service between Gretna
and the owner is required, along with the payment of Gretna’s applicable sewer fees. Gretna had previously deferred payment of its sewer fees in 2006 and 2014 for the portion of this property platted as Lot 1 Hawkins Addition, but the last deferral was subject to (1) those fees being due and paid when any new facilities on Lot 1 Pintail were to be constructed, and (2) removal of the septic system on Lot 1 Hawkins Addition and connection to Gretna’s sanitary sewer when any new facilities on Lot 1 Pintail were to be constructed.

Gretna will not again defer the payment of its sewer fees and nor will Gretna agree to any deferral of the removal of the septic system. Accordingly, and just like any other new plat in Gretna’s wastewater service area, this final plat should not be released to the owner for recording, until our office provides your Department with the required Agreement For Interceptor Connection And Wastewater Service and the owner pays to your Department the applicable sewer fees of Gretna.

Finally, with regard to the special use permit to allow outdoor storage in conjunction with a mini storage facility, Gretna originally opposed the use of Lot 1 Hawkins Addition for mini storage and outdoor storage uses, and Gretna likewise opposes the expansion of those uses on to Lot 1 Pintail. Those uses are not appropriate for the area, especially with NRD Dam Site #19 being planned immediately adjacent to this property to the west. Allowing the expansion of those inappropriate uses on the very edge of future NRD Dam Site #19 readily seems in conflict with and detrimental to future Dam Site #19 and the public safety and recreational purposes that it will serve.

Your cooperation in this matter is greatly appreciated. Please call so as to expedite matters if there are any questions or concerns.

Sincerely,

Jeff C. Miller
