C. GENERAL COMMENTS:

Change of Zone:
- Change of Zone to General Business is consistent with the Sarpy County Comprehensive Plan.
- The Principal Permitted Uses listed in Section 20.1 could locate and operate on the proposed buildable lots. Those uses listed in Section 20.2, Permitted Special Uses, would require additional approvals from the County in order to locate and operate such uses.

Preliminary Plat
- Public Works is studying the realignment of 180th and 192nd Street from Harrison to HWY 370, which will include grade separation structures in the vicinity of this project. Future grade studies may dictate Right of Way or grading needs within the vicinity of the project.
- Preservation of sufficient right-of-way should be considered during the review process.
- Additional right-of-way may be required for Giles Road and for the future 180th Street Corridor and should be shown on Final Plat.
- Access will be limited to Giles Road only and the proposed platting will require two access points to Giles as the parcels are split by a water way.
- All accesses to this property are subject to becoming right-in, right-out only once final buildout is complete.
- Section 6.2.13 of the Sarpy County Subdivision Regulations require that a draft subdivision agreement be submitted with the application for Preliminary Plat. With future road improvements in the area, a subdivision agreement will be required for this development.
• Section 6.2.14 of the Sarpy County Subdivision Regulations require that a proposed Post-Construction Storm Water Management Plan with proposed implementation be submitted with the application. This will be required to be submitted with Final Plat application.
• A portion of the property is located in a SFHA (Seasonal Flood Hazard Area) of the South Papio Creek pursuant to FEMA (Federal Emergency Management Agency) FIRM (Flood Insurance Rate Maps) and will require approval of Flood Plain Development permits for any activity in such area.
• Activity in the Floodway will require No-Rise Certification.
• Any filling or construction on parcels within the SFHA area as mapped by FEMA will be required to comply with Section 30, Flood Plain, of the Sarpy County Zoning Regulations
• Stream Set-Backs as required by Section 38.24 of the Sarpy County Zoning Regulations must be shown on the Final Plat and no construction is allowed within such setback. (3 to 1 slope plus 50 feet to property line is required on named tributaries)
• The use of Outlots A and B needs to be identified as well as the 30’ easement that runs northeasterly/southwesterly across Lot 2.
• The setback lines are not shown accurately along the property line separating the two parcels.
• A Wastewater Sewer Agreement signed by the City of Gretna will be required to be submitted to the Planning Department office with the Final Plat.
• This development will be subject to the sewer sub basin fee as adopted by Resolution 2014-255 which is payable at the time of building permit.
• Sources and Uses of Funds information on this development will be required to be submitted with Final Plat.

RE: DEPOT 180 CHANGE OF ZONE & PRELIMINARY PLAT SUBMITTAL

Mr. Elliott:

The application for consideration of a Change of Zone and a Preliminary Plat of the Depot 180 proposal has been reviewed by Planning Department staff and we have the following comments:

- Section 6.2.13 of the Sarpy County Subdivision Regulations require that a draft subdivision agreement be submitted with the application for Preliminary Plat. With future road improvements in the area, a subdivision agreement will be required for this development.
- Section 6.2.14 of the Sarpy County Subdivision Regulations require that a proposed Post-Construction Storm Water Management Plan with proposed implementation be submitted with the application. This will be required to be submitted with Final Plat application.
- Section 38.24 of the Sarpy County Zoning Regulations require all new developments to provide a creek setback of 3:1 plus fifty feet along all streams identified in the Papillion Creek Watershed Management Plan of which the South Papillion Creek is identified.
- Identify what the use of the proposed Outlots A and B will be in the Notes.
- Identify what the 30’ wide easement that runs northeasterly/southwesterly across Lot 2.
- The setback lines are not shown accurately along the property line separating the two parcels.
- Please note that a Wastewater Sewer Agreement signed by the City of Gretna will be required to be submitted to our office with the Final Plat.
- Sarpy County would be interested in seeing the Source and Use of Fund information on this development is available. It will be required to be submitted with Final Plat.

This application will be heard by the Sarpy County Planning Commission on September 20, 2016 and it is recommended that you have responses to the above noted issues prior to this meeting.

Sarpy County Public Works has reviewed the above referenced submittal documents and has the following comments:

**180th/192nd Corridor:**

Public Works is studying the realignment of 180th and 192nd Street from Harrison to HWY 370, which will include grade separation structures in the vicinity of this project. Future grade studies may dictate Right of Way or grading needs within the vicinity of the project.

**Access Management**

As the aces may be within the vicinity of a signalized intersection, accesses may be limited from full at the final buildout of the 180th and Giles intersection.

Please let me know if you have any questions.

RE: Depot 180 – Change of Zone and Preliminary Plat Applications

Dear Mr. Fountain:

The District has reviewed the change of zone and preliminary plat applications for Depot 180, located northwest of 180th Street and Giles Road in Sarpy County and offers the following comments:

- A post construction stormwater management plan demonstrating on-site control of the first one-half inch of stormwater runoff and no-net increase in peak runoff from a 2-year storm event must be submitted for this project.
- A portion of this property is located in the Zone AE floodplain and floodway of South Papio Creek. A floodplain development permit is required for any development activities in the floodplain area. A no-rise certification is required for any activities in the floodway.
- Stream setbacks are not shown on any of the drawings provided for review. These areas must be shown and no construction may take place within the stream setback.

If you have any questions or concerns, I can be contacted at (402) 315-1773 or at laster@papionrd.org.

Sincerely,

Lori Ann Laster, CFM
Stormwater Management Engineer

Re: Advantage Investment Platt

With regard to the Advantage Investment Platt at 180th and Giles, please note that 180th street is slated to 4 lane divided road. This transportation improvement is anticipated between the years 2031 and 2035 depending on funding. In the coming decades, higher traffic volumes are anticipated around 180th street, MAPA recommends the need for future transportation system improvements, such as the preservation of sufficient right-of-way, be considered during the review process for this development.

If you have any questions, please contact me at 402-444-6866 ext. 229.
