Subject: Re: Planning Review: Change of Zone, Preliminary & Final Plats - Deer Meadows 2

We appreciate the opportunity Bruce. Thanks your including us. We'll take a look at it and provide feedback. My initial thoughts would be.

1. Add additional dedication for utility providers (OPPD, Cox, Century Link, BHE etc.)
2. Apply sewer charges per original HDR study for sewer south of the ridge line, if you have the authority.
3. Add note limiting access to one single point of access so you do not end up with a horseshoe driveway request.
4. I would typically require some authorization from the state that they've received at least preliminary data that the property will support a septic and well system and some designation of the location of the well and lateral fields (prelim site plan showing home location, etc.).

That's all I have right now. Planning and our other engineer may see other things we'd typically require so I'll let them Thanks.
